

## Co-operating UAS' Bachelor's Degree Programmes, spring 2017

This is a list of university of applied sciences (UAS) degree programmes that accept the results of each other's entrance examination in the mentioned field of study. This list applies only to spring application 2017.

Applicant who has applied to 1-6 degree programmes that are included in the same field of study and accept each other's results will be invited only to one entrance examination. The result (of the entrance examination) will be accepted in all the co-operating degree programmes that the applicant has applied to (if the applicant is eligible). Please note, that only the highest option within the same examination group can invite you to the entrance examination.

Notice, that if you are not an eligible applicant, there is a chance that you still might be invited for the entrance examination via discretionary admission. However, you may not be invited for your highest preference, but to some lower option. Each UAS which uses discretionary admission makes the decision autonomously.

### Business and Administration, Bachelor of Business Administration

#### Business, full-time studies

- Arcada UAS, International Business
- HAMK UAS, International Business
- JAMK UAS, International Business
- Kajaani UAS, KAMK, International Business
